

Web main feature Patient appointments system.

You can make an appointment on the clinic with which doctor also can add additional notes. Firs you log in the your account then you can make your appointments

The image shows a MySQL database interface at the top and a web application at the bottom. The MySQL interface displays a query: `SELECT * FROM medpoint_db.appointments;` and a result grid with the following data:

id	appointment_date	appointment_time	created_at	doctor	notes	status	updated_at	user_id
1	2026-04-11	15:51:00.000000	2026-04-10 15:51:35.077630	Dr. Andrea Lim - General Physician	feeling sick	CONFIRMED	2026-04-10 15:51:35.077630	3

The web application, titled "Medpoint", is a "Patient Dashboard" for booking and managing clinic appointments. It includes sections for "All Appointments", "My Profile", "Book Appointments", and "Your Appointment Area". The "Book Appointments" section has a form with fields for Doctor (Dr. Andrea Lim - General Physician), Date (dd - - yyyy), Time (--:--), and Symptoms (optional). The "Your Appointment Area" shows a "General Check-up Appointment" for Dr. Andrea Lim - General Physician on 2026-04-11 at 15:51, with symptoms "feeling sick" and a status of "Confirmed".

You can also change the date or rescheduled you appoint as shown also you the web informs you can this doctor only has duty ours on this day and this time.
